Concept Map Examples

For this Group Assignment:

Make a concept map with information about the giant planets.

- ☆ Brainstorm everything you know about the main topic, using all relevant course material.
- ☆ Organize your information into main points.
- ☆ Start drawing your map: begin with your main topic, branch out into main points and supporting details.
- ☆ Review your map, looking for connections; connect these with arrows, symbols, etc.
- ☆ Include details (definitions, diagrams, etc.).
